

Case Study

Sustainable logo – Number one Engineering employer

Britvic has been awarded 'Engineering Employer of Year' at the Prospects College Regional Business Awards, recognising the great success of our apprenticeship scheme at our Beckton and Widford factory sites.

The award reflects the hard work put in to running the scheme and the dedication to integrating apprentices into Britvic, demonstrating how seriously we take their future careers.

The scheme ensures innovative engagement with the apprentices, regular college visits, team building experiences and structured mentoring.

As a result a number of our apprentices have also picked up awards such as 'Apprentice of the Year.'
